Products: De-Boxer

The Cook & Beals De-Boxer attaches to Cook & Beals uncapper or it can also stand on its own.

Our de-boxer comes with room for one box on each side of the deboxing station. The de-boxer can be fed from either side. The bottom of the incoming box is scraped into a standard wax pan as it is pushed into the de-boxing station. The wax pan is included with the unit. The actual de-boxing operation is done completely hands-free via the double acting, foot operated air cylinder.

The de-boxer can handle either 9 5/8" or 6 5/8" frames with minimal time required to make the change-over.

Price \$3,795.00
Crating \$50.00
