Products: Wax Melter

The wax melter from Cook & Beals separates slum, wax, and honey into individual containers with minimal product degradation. The compact, self-contained melters are simple to operate and offer these features:

- Thermostatically controlled heat
- Insulated, aluminum construction for rapid heat transfer

For optimum results, the Cook & Beals Wax Melter is recommended as a companion to the Cook & Beals Spin Float Honey-Wax Separator, which is capable of separating up to 99% of honey from the wax.

Specifications - King

- height (with cover) 46
- height (without cover) 38
- width 48
- length 54
- floor to drain (honey) 15
- floor to drain (wax) 20
- floor to drain (slum) 21
- power required 50A 230v AC 60HZ
- heating elements (2) 4500 W
- weight (empty) 217

Price \$6,953.00
